

The last Democrat has nothing to say about the State debt. It has learned, we see, by an extract copied from one of the Jefferson papers, that the Governor has been travelling round to borrow money to pay the interest!

The Baltimore Repeal Association held a meeting on the receipt of O'Connell's last great speech, and disbanding after the passage of a vote of censure.

SEATS FOR THE UNITED STATES SENATORS.—The Washington correspondent of the New York Journal of Commerce states that Vice President Dallas has decided upon the alteration in the Senate chamber, necessary for the accommodation of the senators from the new States—Iowa, Florida, and Texas. Florida will be there next winter, and probably Texas; but Iowa has decided to stay out of the Union for a season. The plan adopted is to add a new series of seats with in the semi-circle in front of the chair.—*Baltimore Republican.*

A newly married couple went to house keeping not long since at Boston, in Poplar street. At breakfast the next morning, after their entrance, the gentleman said to his lady, "My dear, this is Poplar street, and by putting u (you) in it, it becomes popular."

"And by putting us in it," promptly replied the lady, "it will become populous."

A QUEER OBJECT.—An exchange paper has the following:
"We once saw in Connecticut one of the queerest looking darkies imaginable. His face was so black that he could not tell when it was morning—his wool curled so tight that it made him round shouldered—his nose was so flat and greasy that he had to put tar on his fingers when he wanted to blow it—his hands were so sharp he could not go through a cornfield without splitting the stalks—and his heels were so long it was impossible for him to go down hill without tying a couple of stones to them for ballast. He died young, of mortification, which commenced in his legs, in consequence of their being too crooked for the blood to find its way up and down them."

COUGHS, COLDS, CONSUMPTION, and all affections of the Lungs and Breast, are speedily and effectually cured by that most excellent preparation, WISTAR'S BALM OF WILD CHERRY. Our ever-varying climate—from heat to cold—demands of the wise and the prudent the earliest attention to all affections of the lungs. Thousands annually consigned to a premature grave by neglecting these diseases. How thankful ought we to be that Providence has placed within our reach a mild, pleasant and efficacious remedy for the most fatal diseases known to our land.
To be had genuine at Dr. Wm. R. Snelson's, Fayette, also, at R. P. Hanenkaup's, Glasgow.

St. Louis, June 4th.
Remarks.—Very little change has been observed in the market since Saturday. Tobacco has come forward pretty freely, and continues to meet with active sale at high prices; while most other descriptions of produce are dull, and in which but little business is doing.

Tobacco.—The only change noticed in the market is an increase in the quantity sold, which, during the last three days amounts to 131 hhds, exclusive of reviews. The bidding continues very lively, and all descriptions command full rates. The sales at the Planters' Warehouse were as follows: 2 hds Passed at \$6 a 6 25; 4 at \$5 a 5 05; 2 at \$4 90 a \$4 95; 8 at \$4 35 a \$4 60; 10 at \$4 a \$4 25; 22 at \$3 50 a 3 90; 8 at \$3 a \$3 45; 5 at \$3 a \$2 80; 1 hhd Refused at \$4 05; 8 at \$3 a \$3 40; 6 at \$2 55 a \$2 95; 12 at \$2 50 a \$2 95; 21 at \$1 10 a \$1 95 per lb. Arrived since Saturday 238 hds, a part of which went forward in first hands.

Hemp.—The market opened on Monday with nearly 2,000 bales on the landing, which gave it a drooping aspect. During the day two lots of well baled prime dew rotted were taken at 71 a \$72 per ton. Yesterday 70 was the highest offer heard, and two lots were sold at that price, one at \$69, and two lots, inferior in quality and order at 65 a \$68 per ton. To day the market was very dull and drooping and the only sale reported was of about 400 bales, not all of first rate, at \$68. Sales altogether amount to only 845 bales, the greater part of the balance has been taken into store. A small lot of water rotted was sold yesterday at \$105 per ton. Received this week, 1502 bales.

NEW ORLEANS MARKET, May 29.
REMARKS.—There is still an unusual dullness in the market, particularly in Western Produce, and prices have rather a downward tendency. JEW DAVID'S OR HEBREW PLASTER.

WHERE THIS PLASTER IS APPLIED PAIN CANNOT EXIST.

A gentleman in the south of Europe and Palestine, in 1830, heard so much said in the latter place in favor of JEW DAVID'S PLASTER, and of the (as he considered) miraculous cures it had performed, that he was induced to try it on his own person, for a lung and liver affection, the removal of which had been the chief object of his journey, but which had resisted the genial influence of that balmy and delicious climate.

He accordingly applied a plaster on the right side of his chest, where the pain was seated, another between the shoulders, and one over the region of the liver. In the mean time he drank freely of an herb tea of laxative qualities. He soon found his health improving, and in a few weeks his cough left him, the shallowness of his skin disappeared, his pain was removed, and his health became permanently restored.

Since that time he has been recommending it to his friends, and acquaintances for all fixed pains whatever, such as Rheumatism, Gout, Pain in the Side, Hip, Back and Limbs, in every case of which it has proved an effectual cure. He has likewise witnessed the happy effects of its softening and healing qualities, in numerous cases of scrofulous humors, Knots, Wens, White Swelling, hard Tumors, Skin Eruptions, Aqueous Cakes, in the Breast, and the like, to the united satisfaction of himself and others.

It has been very beneficial in cases of Weakness, such as Weakness and Pain in the Stomach, Weak Limbs, Lameness, affections on the Spine, Female Weakness, &c. No female, subject to pain or weakness in the back or sides, should be without it. Married ladies, in delicate situations, find great relief from constantly wearing this plaster.

The application of the plaster between the shoulders has been found a certain remedy for Colds, Coughs, Phthisis and Lung affections, in their primary stages. It destroys inflammation, by perspiration. No physician should be without it. In view of the great benefit resulting from the use of this plaster, within his own observation, his confidence in its superiority over every other plaster, ointment, opodeldoc, before the public in this country, has induced this gentleman to place the Hebrew Plaster into the hands of those who will give it publicity, believing it will prove itself a rich blessing to the community at large.

The peculiarities of this Chemical compound, are owing to its extraordinary effect upon the animal fibres or nerves, ligaments and muscles, its virtues being carried by them to the immediate seat of the disease, or of pain and weakness. Price 50 cents a box; containing sufficient to spread 6 or 8 plasters.

REMARKS.
The above truly valuable article, when used externally, in connection with "WISTAR'S BALM OF WILD CHERRY," taken internally, imparts the greatest relief to patients laboring under any pulmonary or liver complaint. Either article used alone has in numerous instances, given very high satisfaction—but when both are used, (which we always recommend), the relief afforded is much more immediate, and disease is most certainly banished from the system. We commend it to the candid attention of all invalids laboring under any chronic or long standing disease.

LOOK OUT FOR COUNTERFEITS.
The genuine Jew David's or Hebrew Plaster is for sale by Dr. Wm. R. Snelson, in Fayette. And R. P. Hanenkaup, Glasgow.

Consumption of the Lungs.
Affections of the Liver, Asthma, Bronchitis, Pain or Weakness of the Breast or Lungs, Chronic Cough, Phlegmy, Hemorrhage of Lungs, and all Affections of the Pulmonary Organs.

NATURE'S OWN PRESCRIPTION.
Among all the famous medicines for consumption, none seems to be meeting with greater success, or gaining a higher reputation than that most wonderful article Wistar's Balm of Wild Cherry. That it stands at the head of all other remedies is now universally conceded. It has cured thousands upon thousands of all classes, in cases of the most dangerously consumptive character, and physicians of the greatest eminence throughout our whole country unhesitatingly recommend it as the most powerful curative of pulmonary diseases in the whole range of pharmacy. The sales in the Western States have thus far been unparalleled, and the most gratifying proofs of its efficacy have been received from every place where it has been used. Thousands of consumptive patients have already tested its exalted virtues, and confessed its surpassing, excellent and amazing power. The remarkable success of this balm is no doubt owing, in a great measure, to the peculiarly agreeable and powerful nature of its ingredients. It is a fine herbal medicine, composed chiefly of wild cherry bark and the genuine Iceland moss, (the latter imported expressly for this purpose), the rare medicinal virtues of which are also combined by a new chemical process with the extract of ferrous thus rendering the whole compound the most certain and efficacious remedy ever discovered for Consumption of the Lungs.

THE VOICE OF THE WEST.—Still further Evidence of the Remarkable Virtues of Wistar's Balm of Wild Cherry.

The following has just been received from Mr. Edward Stratton, of Lexington, Mo., which shows that Consumption in its worst form can be cured by Wistar's Balm of Wild Cherry.

LEXINGTON, Mo., January 21st, 1845.
Benjamin Phelps—Dear Sir: I take great pleasure in communicating to you what I consider an extraordinary cure effected on my daughter, about fourteen years of age, by Wistar's Balm of Wild Cherry. About the 1st of September last, my daughter was taken sick, and was attended by several physicians, whose prescriptions proved ineffectual, or seemed to do no good. She was attended with a constant cough, and pain in the breast. Her physicians, and all who saw her, came to the conclusion that she was in a confirmed stage of consumption. I made no other calculation than for her to die. But as soon as she commenced taking the Balm she began to improve, and continued so to do until her health was restored, and is now entirely well. With a view of benefiting those who may be similarly afflicted, I take pleasure in recommending this remedy to the confidence of the public.

Yours, with respect,
EDWARD STRATTON.
